

Message from President Director

Welcome to the S NET INDONESIA Website. When I became President of S Net Indonesia in 2008, I felt a sense of obligation to lead this Company with the same ideals that had been implanted into the organization by its founder S Net Systems Inc. Korea. Although S NET has always been a Network Integrator, it is defined by a desire to deliver more than just an common integrator solutions, we take the challenge to be System Integrator as well.

Now, four years later, we have tripled in size, and our operations span widely. We offer a much broader product range, covering most of Leading edge Product and Applications in the ICT market. We do not want to provide our customers with just a product, but rather with the most cost effective, quality products and solutions in the industry. Our goal has never wavered.

We work as closely as possible with all of our partners. We challenge them to think beyond their current needs, looking for ways to improve their cost effectiveness through products and processes.

We believe the customers' needs have to be considered with every product we offer. We believe that the ICT' needs must be an integral part of the thought process as we develop not just products, but total solutions.

As you might imagine, our people are an integral part of our Company's culture and share in our vision and our ideals. We believe in leveraging the abilities of our employees and investing in them, so that they can be the best that they can be.

As part of your regular visits to our website, I hope you will gain a better insight into our products, get a better sense of who we are, and feel our eagerness to constantly improve.

I look forward to develop beneficial relation with you.

Warm Regards,
Sangwon Jang
President Director
